RetailzPOS / Moolah Points — Daily Trending Topics Brief

November 7, 2026

Trending now — 1 topic with a genuine brand angle

#	Trend	Source	Brand-twist content idea
1	**This is the first Diwali (main day Sunday, Nov 8, 2026) that California observes as an official statewide holiday** — Gov. Newsom signed AB 268 on Oct 6, 2025, making California the third US state (after Pennsylvania and Connecticut) to recognize Diwali statewide; it took effect Jan 1, 2026, so this weekend is its first real-world observance: state employees can take the day, and public school students get an excused absence. A genuinely new, dated angle distinct from October's "distillers release Diwali gift editions" coverage — this is about the holiday's civic/policy status, not product gifting.	ABC7 — California makes Diwali an official statewide holiday; India Currents — Governor Newsom signs the Diwali bill	**LinkedIn/Instagram, community-acknowledgment post (strong fit for California store owners specifically, usable nationally too).** "This is the first year California officially recognizes Diwali as a state holiday — joining Pennsylvania and Connecticut. If Diwali is something your store, your staff, or your regulars celebrate, it's a good weekend to acknowledge it — a sign in the window, a note to regulars, even just wishing customers a happy Diwali goes a long way." No product/pricing claim, genuinely relevant given RetailzPOS's South Asian merchant base, and distinct from the gifting-trend angle already used twice in October.

Skipped / unconfirmed despite extensive searching: Diwali US retail sales data — no actual 2026 sales results exist yet. Target’s Early Black Friday sale wrap-up — today is the last day of the window but no results/recap published yet, too soon. Halloween final spending tally — still only the pre-event $13.5B forecast. Convenience-store industry news — nothing dated past mid-2026. State vape/CBD law — nothing dated to this week. TikTok trends — no November-specific sound/challenge confirmed. Loyalty/fintech news — nothing dated past April 2026. Gas prices — most recent confirmable figure is 6 days old, held rather than present a stale number as current.

Compliance check: the one idea implies no pricing, no overconsumption, and no underage-adjacent framing — it’s a neutral, respectful community-acknowledgment post tied to a real, dated civic/policy development, with no alcohol/tobacco/CBD product mention.
