Hiring Proposal — Content Specialist & Social Media Coordinator

RetailzPOS & Patel Processing · Prepared by Marketing · October 2026

To: Leadership **From:** Marketing **Date:** October 2026 **Re:** Proposal to open a Content Specialist & Social Media Coordinator role covering RetailzPOS and the Patel Processing rebrand

---

The ask

I'd like approval to post a new, entry-to-mid-level **Content Specialist & Social Media Coordinator** role covering both RetailzPOS and Patel Processing. This version of the role includes real ownership of our SEO/AEO/GEO content strategy — writing that's built to actually get cited by AI search tools, not just rank traditionally — alongside social content planning and some shoot support. I've put together the market research below — comparable roles, what they actually pay in and around Henry County, and a draft job posting ready to go live. I'm looking for a sign-off on the title, the compensation range, and the posting itself so I can start sourcing candidates.

Why now

Our content output has grown past what I can keep producing solo. Between the daily trend research, the blog library, the AEO/compliance content tied to our holiday push, and the social calendar, we're already running a real content operation for RetailzPOS — and it's working: we're actively tracking and improving how often AI search tools cite us. On top of that, Patel Processing's brand relaunch needs its own steady stream of content starting now, not once the new look is finalized. I need someone who can take real ownership of research, strategy, and writing — including the search/AI-citation side specifically — help me get more out of our shoots, and be another face in front of the camera when a piece calls for it, without me needing to hand off production or editing, which we're keeping in-house as-is.

What I found: comparable roles in the market

I looked across the major hiring sites and a number of salary-research platforms to see how companies are actually titling and structuring this kind of role. A few honest caveats up front: I couldn't query Indeed, LinkedIn, ZipRecruiter, or Glassdoor directly from here, so everything below comes from search results and aggregator/salary sites, cross-checked where I could. And **I found no job postings specific to Henry County or McDonough** for this type of role — the one genuinely local listing was a Henry County Government Web Content Specialist posting, which didn't list a salary. Everything else is an Atlanta-metro comparison, which is the best proxy available for a market 30 miles southeast of the city.

Once I added the SEO/AEO/GEO requirement, the closest real-world matches split into two families — content/social roles and SEO-specialist roles, with AEO/GEO showing up as a named skill line inside SEO and content-writer postings rather than its own title yet:

Title pattern	Example	Level	What it covers
Social Media Coordinator / Specialist	Payscale/Built In benchmarks, Atlanta	Entry/Mid	Content calendar, captions, trend research, performance tracking
SEO Specialist	Mondo, Atlanta (live posting, hybrid)	Mid	$70,000–$80,000; the clearest pay comp for the search-strategy half of this role
Content Writer — GEO/AEO	HumanWiz (via iimjobs)	Mid/Senior	Confirms AEO/GEO is now a named, hireable skill, not a niche ask
AI Content Specialist	Insight Partners portfolio role	Entry/Mid	Explicitly for "strong B2B writers who understand SEO fundamentals and are developing hands-on AEO/GEO expertise" — the closest level-match to what I'm proposing

Title pattern	Example	Level	What it covers
Content Writer (fintech/ payments)	Optimized Payments, Atlanta (hybrid)	Mid	Blog, social, case studies, SEO, for a payments audience — the closest match I found for the Patel Processing side specifically
Web Content Specialist	Henry County Government, McDonough	Entry/Mid	The only genuinely local posting I found; no salary listed

What I took away from this: “Content Creator” still isn’t the right title once production is off the table, and a pure “SEO Specialist” title undersells the social/content side of what we need. **“Content Specialist & Social Media Coordinator”** is the title that actually matches the blend — and the market increasingly expects someone in this kind of role to understand AEO/GEO as part of the job, not as a specialist add-on.

What I found: compensation

Same caveat as above — no Henry County–specific pay data exists that I could find, so I’m working from Atlanta-metro benchmarks for the closest comparable titles. Henry County’s cost of living runs a bit below core Atlanta, so actual local pay likely lands at or slightly below these figures.

Role proxy	Range	Source
Social Media Coordinator, Atlanta	$41,000–$55,000 (avg ~$48,000)	Payscale
Content Specialist, Atlanta	$57,000–$67,000 (avg $63,383)	Payscale
SEO Specialist, Atlanta	Entry $47,000–$58,000 / Mid $62,000–$77,000; live posting $70,000–$80,000	Orbyt + live Mondo posting — the main reason I’m recommending a higher range than my first draft
Entry-level Social Media Agent, Atlanta	~$45,000–$65,500 (annualized)	Live posting, Fresh Form Draft
Digital Content Specialist, Atlanta (public sector)	$50,000–$60,000 entry	GA Dept. of Economic Development posting

Budget I’m working within: $42,000–$55,000/year base. Worth flagging honestly: the market data above puts AEO/SEO strategy skill closer to $60K–$80K in Atlanta, so

this range is competitive for the content-writing and social-coordination side of the role but sits below where dedicated SEO/AEO experience actually prices. Practically, that likely means we're hiring someone with strong research and writing fundamentals and real interest in AEO/GEO who builds that expertise with us, rather than someone who walks in with it already proven. I think that's a reasonable trade-off at this budget — just wanted to be upfront that it's a trade-off, not a market-rate match for the full scope.

Recommended job posting

Here's the posting I'd propose we run, on Indeed, LinkedIn, ZipRecruiter, and any Henry County-area boards. Flagging two things I need from leadership before it goes live: the final compensation number, and whether we want this on-site, hybrid, or remote-eligible.

Job Title: Content Specialist & Social Media Coordinator — RetailzPOS & Patel Processing

Location: Henry County, GA (McDonough area) — [on-site / hybrid / remote-eligible — need a decision] **Employment Type:** Full-time **Level:** Entry to Mid-Level **Compensation:** $42,000–$55,000/year, based on experience

About the Role

We're looking for a content-savvy, research-driven writer to help tell the story of two growing brands: **RetailzPOS**, a point-of-sale platform built for liquor, convenience, smoke/vape, and CBD retailers, and **Patel Processing**, our credit card processing company currently undergoing a full brand refresh. This role sits at the intersection of great writing, social strategy, and modern search — we need content that doesn't just read well, it gets found and cited. That means writing for traditional SEO and for how AI answer engines (ChatGPT, Perplexity, Microsoft Copilot, Google AI Overviews) actually select and cite sources, alongside planning and writing the social content that drives views and engagement day to day.

You'll also help with video shoots and appear on camera as a talking head when a piece calls for it — but you won't be running the camera or editing footage yourself; our team handles that.

What You'll Do

- Write blog posts, comparison/best-for/alternatives pages, FAQ content, social captions, video scripts, and marketing copy for RetailzPOS and Patel Processing in each brand's own voice

- Research and apply AEO/GEO (Answer Engine/Generative Engine Optimization) strategy — structuring content so AI search tools actually cite it, not just traditional keyword SEO
- Research daily/weekly trending topics and competitor content, and turn both into a real content plan built to grow views, engagement, and search/AI visibility — not generic reposts
- Plan and maintain a content calendar across platforms (Instagram, TikTok, LinkedIn, Facebook, YouTube) and across our written content library
- Track what's actually ranking, getting cited, and performing — and adjust the content plan based on real results, not guesswork
- Assist with video shoots — logistics, setup, prompting, coordinating locations and schedules — working alongside whoever's on camera and editing
- Appear on camera as a talking head or presenter when a piece of content calls for it
- Support Patel Processing's brand relaunch with consistent written and planned content across the transition
- Collaborate with the broader marketing effort already underway for both brands

What We're Looking For

- **Great research and writing skills, above all else** — you can research a topic properly and write it clearly, specifically, and without fluff
- Working knowledge of SEO fundamentals, plus real interest in or experience with AEO/GEO — how AI search tools decide what to cite, and how to write content that earns that citation
- 0–3 years of experience in content writing, SEO, social media, or a related field (entry-level candidates with a strong writing portfolio are welcome to apply)
- Genuinely social-media fluent — you already know what's trending and why, and can turn that into a real content plan
- Comfortable writing for different audiences and tones (consumer-facing retail content vs. B2B payments/fintech content)
- Comfortable being on camera — confident, natural on-screen presence
- Organized enough to manage a content calendar and shoot logistics across two brands without things slipping

Nice to Have

- Hands-on experience with AEO/GEO content strategy — structuring content for AI citation, FAQPage/structured data basics, or researching which sources AI engines cite in your industry
- Experience in retail, fintech/payments, or B2B SaaS content/SEO
- A portfolio of writing samples or content plans that drove measurable traffic, engagement, or citation results
- Basic graphic design skills (Canva or similar)

- Prior on-camera or presenting experience

To Apply: [insert application instructions — email, application link, or portal]

What I need from you

1. **Sign-off on the title** — recommending “Content Specialist & Social Media Coordinator”
2. **Sign-off on the compensation range** — $42,000–$55,000/year
3. **A decision on work location** — on-site, hybrid, or remote-eligible
4. **Go-ahead to post** on Indeed, LinkedIn, ZipRecruiter, and relevant local boards

Happy to walk through any of this in more detail or adjust the range/scope if there’s budget guidance I should be working within.

Research basis: publicly available job-market and salary data as of October 2026, cross-referenced across available sources. No Henry County–specific postings or wage data exist for this role — figures above are Atlanta-metro proxies, the closest available substitute. I’d recommend confirming against live postings closer to go-live, since this moves fast.
