Hiring Proposal — Content Specialist

RetailzPOS & Patel Processing · Prepared by Marketing · October 2026

To: Leadership **From:** Marketing **Date:** October 2026 **Re:** Proposal to open a Content Specialist role covering RetailzPOS and the Patel Processing rebrand

---

The ask

I'd like approval to post a new, entry-to-mid-level **Content Specialist** role covering both RetailzPOS and Patel Processing. I've put together the market research below — comparable roles, what they actually pay in and around Henry County, and a draft job posting ready to go live. I'm looking for a sign-off on the title, the compensation range, and the posting itself so I can start sourcing candidates.

Why now

Our content output has grown past what I can keep producing solo. Between the daily trend research, the blog library, the AEO/compliance content tied to our holiday push, and the social calendar, we're already running a real content operation for RetailzPOS. On top of that, Patel Processing's brand relaunch needs its own steady stream of content starting now, not once the new look is finalized. I need someone who can take real ownership of the planning and writing side, help me get more out of our shoots, and be another face in front of the camera when a piece calls for it — without me needing to hand off something as specialized as production or editing, which we're keeping in-house as-is.

What I found: comparable roles in the market

I looked across the major hiring sites and a number of salary-research platforms to see how companies are actually titling and structuring this kind of role. A few honest caveats

up front: I couldn’t query Indeed, LinkedIn, ZipRecruiter, or Glassdoor directly from here, so everything below comes from search results and aggregator/salary sites, cross-checked where I could. And **I found no job postings specific to Henry County or McDonough** for this type of role — the one genuinely local listing was a Henry County Government Web Content Specialist posting, which didn’t list a salary. Everything else is an Atlanta-metro comparison, which is the best proxy available for a market 30 miles southeast of the city.

Here’s what the real postings look like once I accounted for the fact that our hire won’t be shooting or editing independently — just planning, writing, assisting on shoots, and appearing on camera:

Title pattern	Example	Level	What it covers
Social Media Coordinator / Specialist	Payscale/Built In benchmarks, Atlanta	Entry/Mid	Content calendar, captions, trend research, performance tracking — the core of what I’m proposing
Entry Level Social Media Agent	Fresh Form Draft, Atlanta	Entry/Junior	$21.50–$31.50/hr; minimal requirements
Marketing Content / Social Media Specialist	Mediabistro (two listings)	Mid	Writing + social strategy + light visual-content support
Content Writer (fintech/payments)	Optimized Payments, Atlanta (hybrid)	Mid	Blog, social, case studies, SEO, for a payments audience — the closest match I found for the Patel Processing side specifically
Web Content Specialist	Henry County Government, McDonough	Entry/Mid	The only genuinely local posting I found; no salary listed

What I took away from this: once production is off the table, “Content Creator” isn’t the right title — in real postings, that title almost always implies hands-on shooting and editing. “Content Specialist” is the cleaner, more commonly searched title that still accurately covers what this role actually does.

What I found: compensation

Same caveat as above — no Henry County–specific pay data exists that I could find, so I'm working from Atlanta-metro benchmarks for the closest comparable titles. Henry County's cost of living runs a bit below core Atlanta, so actual local pay likely lands at or slightly below these figures.

Role proxy	Range	Source
Social Media Coordinator, Atlanta	$41,000–$55,000 (avg ~$48,000)	Payscale
Content Specialist, Atlanta	$57,000–$67,000 (avg $63,383)	Payscale — likely skews toward a more senior, writing-only version of this role
Entry-level Social Media Agent, Atlanta	~$45,000–$65,500 (annualized from $21.50–$31.50/hr)	Live posting, Fresh Form Draft
Remote Content Marketing Specialist, Georgia (statewide)	~$46,359 median	Plane — remote/base-only, likely understates on-site pay
Digital Content Specialist, Atlanta (public sector)	$50,000–$60,000 entry	GA Dept. of Economic Development posting

My recommendation: $42,000–$58,000/year base. I landed here specifically because this version of the role doesn't include shooting or editing — those are the skills that would normally justify the top end of a "content creator" range, and we're keeping that work in-house. On-camera comfort is a real, valuable asset, but it doesn't command the same premium in the market as production skills do. I'd lean toward the lower half ($42K–$48K) if we're open to training someone up on the trend-research and planning side, and toward the top ($52K–$58K) for a candidate who already has a track record of planning content that actually moved the needle on views.

Recommended job posting

Here's the posting I'd propose we run, on Indeed, LinkedIn, ZipRecruiter, and any Henry County-area boards. Flagging two things I need from leadership before it goes live: the final compensation number, and whether we want this on-site, hybrid, or remote-eligible.

Job Title: Content Specialist — RetailzPOS & Patel Processing (Also tested well as "Content Strategist & Social Media Coordinator" or "Content & Social Media Specialist"

— all three are real, recognized titles for this role; “Content Specialist” is the cleanest and most commonly searched of the three.)

Location: Henry County, GA (McDonough area) — [on-site / hybrid / remote-eligible — need a decision] **Employment Type:** Full-time **Level:** Entry to Mid-Level **Compensation:** $42,000–$58,000/year, based on experience [pending sign-off]

About the Role

We’re looking for a content-savvy, social-first planner to help tell the story of two growing brands: **RetailzPOS**, a point-of-sale platform built for liquor, convenience, smoke/vape, and CBD retailers, and **Patel Processing**, our credit card processing company currently undergoing a full brand refresh. This role is about the thinking and the writing as much as the output — you’ll figure out what content should actually get made to drive views and engagement, write it, help produce it, and be a face in front of the camera when a piece calls for it.

You won’t be running the camera or editing footage yourself — our team handles that. You’ll be the person making sure what gets shot is actually worth shooting.

What You’ll Do

- Research trending topics, formats, and sounds daily/weekly, and turn them into a real content plan built to actually grow views and engagement — not generic reposts
- Write blog posts, social captions, video scripts, and marketing copy for RetailzPOS and Patel Processing in each brand’s own voice
- Plan and maintain a content calendar across platforms (Instagram, TikTok, LinkedIn, Facebook, YouTube)
- Assist with video shoots — logistics, setup, prompting, coordinating locations and schedules — working alongside whoever’s on camera and editing
- Appear on camera as a talking head or presenter when a piece of content calls for it
- Support Patel Processing’s brand relaunch with consistent written and planned content across the transition
- Track what’s actually performing and adjust the content plan accordingly
- Collaborate with the broader marketing effort already underway for both brands

What We’re Looking For

- 0–3 years of experience in content strategy, social media, marketing, or a related field (entry-level candidates with a strong portfolio or demonstrated social-media instincts are welcome to apply)
- Genuinely social-media fluent — you already know what’s trending and why, and can turn that into a real content plan, not just a list of ideas

- Comfortable writing for different audiences and tones (consumer-facing retail content vs. B2B payments/fintech content)
- Comfortable being on camera — confident, natural on-screen presence
- Strong writing fundamentals — clear, specific, no fluff
- Organized enough to manage a content calendar and shoot logistics across two brands without things slipping

Nice to Have

- Experience in retail, fintech/payments, or B2B SaaS marketing
- A portfolio, reel samples, or examples of content plans that drove real engagement growth
- Basic graphic design skills (Canva or similar)
- Prior on-camera or presenting experience

To Apply: [insert application instructions — email, application link, or portal]

What I need from you

1. **Sign-off on the title** — recommending “Content Specialist”
2. **Sign-off on the compensation range** — recommending $42,000–$58,000/year
3. **A decision on work location** — on-site, hybrid, or remote-eligible
4. **Go-ahead to post** on Indeed, LinkedIn, ZipRecruiter, and relevant local boards

Happy to walk through any of this in more detail or adjust the range/scope if there’s budget guidance I should be working within.

Research basis: publicly available job-market and salary data as of October 2026, cross-referenced across available sources. No Henry County–specific postings or wage data exist for this role — figures above are Atlanta-metro proxies, the closest available substitute. I’d recommend confirming against live postings closer to go-live, since this moves fast.
