RetailzPOS / Moolah Points — Daily Trending Topics Brief

November 13, 2026

Trending now — 5 topics with genuine brand angles

#	Trend	Source	Brand-twist content idea
1	**World Kindness Day, today (Nov 13, 2026).**	timeanddate.com; awarenessdays.com	**Instagram/Facebook, pure community post, no commercial framing.** “World Kindness Day is today. If one of your regulars is having a rough week, today’s a good excuse to comp their coffee or just say so out loud — the kind of thing a chain never does but you can.” Distinct from Nov 11’s Veterans Day tribute — everyday-kindness vs. service-respect tone.

2	**Friday the 13th — today is the third and final one of 2026.**	sortiraparis.com; almanac.com; local-news superstition roundups	**Light, product-neutral post, LinkedIn/Facebook.** “Third and last Friday the 13th of the year. Superstitious or not, here’s a non-spooky way to make your own luck: make sure every regular who walks in today actually gets scanned into Moolah Points before they leave.” Deliberately kept away from any “drink to ward off bad luck” framing — ties superstition to a loyalty-capture nudge only.
3	**Vape/smoke-shop regulatory tightening accelerating**: Hawaii’s largest independent vape retailer (Volcano eCigs, 13 stores) announced it’s closing by Dec 31, 2026 citing new state laws; a federal seizure of $86M+ in vape devices in September was reported as the largest of its kind.	hawaiinewsnow.com (Nov 7, 2026); 2firsts.com; wkbw.com	**Educational/ compliance post for smoke-vape retailers, Instagram/ LinkedIn/newsletter.** “A major vape retailer just announced it’s closing all 13 stores over new state rules — and federal seizures of vape product are at record levels this year. If you sell vape, this is a good week to double-check you’re squared away with your state’s current rules and your supplier’s compliance paperwork.” Pure informational/ compliance-help framing, no product claims, no legal advice.

4	**NACS 2026 State of the Industry data**: store-banner loyalty now outpaces product-brand loyalty industry-wide; overall c-store loyalty membership sits at 77.2%, rising to 81.9% among tobacco/nicotine shoppers specifically; gas savings (45.2%) and digital coupons (44.2%) are the most-valued reward types.	NACS / convenience.org, nacsmagazine.com (2026 SOI coverage)	**LinkedIn/newsletter post for RetailzPOS c-store & smoke-shop merchants, stat-led.** “Nearly 82% of tobacco and nicotine shoppers are already loyalty-program members somewhere. If they’re not earning Moolah Points with you, they’re earning points with whoever else they shop at.” Real, sourced stat — a different cut (membership penetration) from Nov 12’s ROI-dollar stat.
5	**C-store vape sales dropped 6.0% in August 2026 as volume shifts to untracked channels — but accessories sales surged 38%.**	Tobacco Insider / tobacco trade coverage, Aug 2026 data	**Specific, data-led post for smoke-vape retailers.** “Vape product sales are down industry-wide, but accessories are up 38%. If your shelf space still skews old toward the product itself, this is the month to rebalance toward accessories — and ring up the loyalty scan either way.” Hardware/accessories framing only — no encouragement of product use, no underage-adjacent language.

Skipped / unconfirmed despite searching: Target’s Black Friday results — Black Friday is Nov 27, hasn’t happened yet. NRF Halloween final spending — still only the pre-season $13.5B forecast; no post-season actual ever appears to get published. National gas price for today specifically — most recent clean AAA figure found is $4.0371/gal as of Nov 7, a week old; held rather than presented as current (same issue flagged in the

Nov 11 and Nov 12 briefs). Arko's fas REWARDS fuel-discount campaign — real and large, but the underlying app redesign dates to March 2026, not new this week, and overlaps conceptually with Nov 12's Golden Gate Petroleum item. General Google Trends items (Walgreens closures, Yellowstone bison, sports, awards, Social Security COLA) — checked, no plausible brand angle. TikTok format scan — no new dominant format found beyond what Nov 11/12 briefs already surfaced; nothing newer confirmed this week.

Compliance check: none of the 5 kept ideas implies RetailzPOS's own pricing/discounts; idea #2 deliberately avoids any alcohol-to-ward-off-bad-luck framing, staying product-neutral; idea #3 is purely informational/compliance-help, directs owners to verify with their own supplier/state; idea #5 frames hardware/accessories rather than encouraging product consumption, with no underage-adjacent language; idea #4 is a neutral membership stat. Voice stays plain and owner-to-owner throughout.
